

Jacquot Alex

Full-stack Web Developer (React / Next.JS)

React developer with a generalist and varied education and the experience of a co-founder of a modern technological start-up with the best of Web2 and Web3 paradigms, looking for a modern start-up to grow professionally with.

Work experience

CTO / Full-stack Developer - Tokenomeme 2021-current (15 mo.)

- Spearheaded the development of a Next.JS-based social network and content aggregation solution with Web3 capabilities, spanning 10 popular platforms.
- Implemented cost-effective and high-performance solutions to run 3 different platforms, optimizing resources for maximum efficiency.
- Documented and managed a team of a dozen sub-contractors, efficiently progressing company development within allocated resources.
- Used a full stack to fully develop the project: Next.JS, Node.JS, Firebase, AWS services and Thirdweb frameworks

Support Officer / Technical advisor - DHL 2021(3 mo.)

- Provided technical advisory for second-level support in 2 national branches
- Improved technical support processes by approximately 50% through innovative team brainstorming and engineering of existing documentation.

Java/ Angular Software Engineer - CS Space 2019-2020 (18 mo.)

- Engineered and optimized data processing workflows for satellite imagery, adhering to PUS standard protocols, ensuring seamless data handling.
- Developed an Java and AngularJS-based application to store real-time service data from a constellation of 12 satellites, enhancing data storage capabilities.
- Conducted a theory thesis on data management and interface for constellations of thousands of satellites, contributing valuable insights to the field.

Intern Developer - AKKA 2017-2018 (6 mo.)

- Created a streamlined process for handling level 2 Airbus JIRA tickets, leveraging VBA development to manage thousands of tickets efficiently
- Developed a robust Java application to efficiently store and manage testing documents for Airbus engines, ensuring seamless access and retrieval of critical data.

Education
